

Flexible Payment Options for Students

PayPal Flexible Payment Option

Are you interested in joining our program but prefer to spread out your payments? We're pleased to offer flexible installment plans through PayPal, designed to make it easier for you to manage your finances while pursuing your educational goals.

How It Works:

1. **Personalized Invoices:** We create customized invoices detailing your program or service. You'll receive these directly via email.
 2. **Payment Schedule:** Choose from biweekly or weekly payments, or opt to pay half upfront with the remainder due before the program start date.
 3. **No Extra Fees:** Enjoy the convenience of installment payments without any additional service charges through PayPal. We believe in transparency and keeping costs straightforward for our students.
 4. **Flexibility Before Start Date:** Make payments as agreed upon before the program begins. This flexibility ensures you can budget effectively without stress.
 5. **Post-Start Date Option:** Need to make a payment after the program starts? No worries! You can use [Gratify](#) to ensure you stay on track with your payments.
